Local insight. Global reach.

"We aim to help clients go further and to reach new heights of sustainable growth."

The world continues to develop at rapid speed, creating new challenges, especially as companies look to expand and cross international borders. Clients require their professional advisers to have genuine global reach, and at Russell Bedford International we specialise in helping companies to meet these challenges.

Conceived to help fulfil the objectives of its members' clients, Russell Bedford International is a global network of independent firms of accountants, auditors, tax advisers and business consultants – all of them thoroughly assessed to ensure they live up to the organisation's core values of service quality, integrity and independence. Since 1983, our worldwide network of has provided financial expertise and business consultancy to companies within many different markets and industries.

Ranked as one of the world's top accounting networks, Russell Bedford is represented by 700 partners, 6000 staff and 300 offices in some 100 countries in Europe, the Americas, Middle East, Africa, Indian Sub-Continent and Asia-Pacific.

Russell Bedford helps you explore new horizons, with global talent and the latest technologies. So wherever you are, and wherever you want to go, we are there to help you.

Big enough. Small enough.

“Independent, connected and vibrant.”

Members of Russell Bedford International are typically firms of chartered or certified public accountants offering a full range of accounting, audit, tax and business consulting services to clients across all sectors, but with particular strength in supporting owner-managed businesses and their owners and, above all, an ability to operate with a global perspective. Usually located in key business centres, Russell Bedford firms would normally be ranked among the leading mid-tier practices in their territories.

Our network development strategy has led to the creation of a close-knit family of firms which are not only similar in size, client base and scope of services, but which are also like-minded, independent professional services practices that will pool their experience and knowledge, local insight and connections, and provide clients with expert solutions on a truly global scale.

Boutique accounting practices may offer the client service, but cannot match the array of service offerings of a global firm. Large accounting firms have the manpower and expertise, but are not able to offer sufficient personal attention and partner involvement.

Russell Bedford firms are the right size to deliver both superb client service and comprehensive support. And, our world-class experience is available at value-for-money fees.

It's one to one. That's the difference.

"We bring real benefits in terms of the speed, quality and delivery of information."

The Russell Bedford approach is based on strong, long-lasting, professional relationships, within an environment built on values such as accountability, integrity, professionalism, excellence, delivery of results and collaboration.

Our worldwide network is a global family of independent, mid-tier practices, sharing a common ethical code and a focus on responsive, personalised, partner-led service.

Our member firms communicate closely, frequently and effectively, and this brings real benefits to clients in terms of the speed, quality, value and delivery of information. They are well-established, with excellent reputations, and you can be confident of exceptionally high professional standards across the world.

Clients of Russell Bedford firms have one-on-one access to the most senior advisers on every engagement. With such responsive personal service, swift turnaround is assured, along with the consistent follow-through you require on every request.

Our members are also well placed to arrange introductions to other local professionals whose skills and resources are complementary, such as lawyers or bankers.

Quality, integrity and independence.

"We are committed to taking you further."

It used to be that only the largest accounting firms could provide expert global, cross-border, or multinational services. With Russell Bedford there is an alternative.

As a global audit network, Russell Bedford International is totally committed to quality, integrity and independence.

Our technical and ethical standards are aligned with those of the international standard setters. Following several years of dedicated effort and significant financial investment, we have successfully developed and implemented a globally-coordinated system for monitoring the audit quality control standards of our member firms.

Our commitment to quality control, independence, monitoring of potential conflicts of interest, and continued professional development has ensured Russell Bedford's acceptance as a full member of the IFAC Forum of Firms, the global association of the leading international accounting networks.

And of equal importance, membership of the Russell Bedford network comes with a focus on continuous improvement, driving professional standards higher each year.
